KICKS CHILD OFF TRACK

Engineer Runs Out on Pilot and Saves Little One Just in Time.

Glenwood, Miss.—While running his train out of Dent, W. A. Beardsley, engineer on freight No. 71, saw what seemed to be a blue parcel lying between the rails about twenty car lengths ahead. But it turned out to be a child, who arose and sat down on one of the rails. The emergency brake was applied, but it was impossible to stop in time. Beardsley ran out on the pilot, intending to pick the

child up. He reached the pilot too late, but had to extend his foot and kick the child off the rail and down the embankment.

The train was stopped, the child picked up and brought back to the hotel at Dent. A doctor was summoned and it was found that the child was unhurt except that it had a bruise where the engineer's shoe had struck it.

A Grand Old Man Honored.

At the recent meeting of the General Assembly of the Presbyterian church a signal honor was conferred upon Rev. Joseph Hopper, the veteran evangelist of Perryville, says the Harrodsville Herald. "Uncle Joe" as he is lovingly called, is eighty-seven years old, is known far and wide over the State as being usually successful in winning souls to Christ. He is a man of the ranks, a plain unpretentious Christian, who does the Master's work humbly and earnestly. He went to Louisville to attend the General Assembly as an onlooker. At the meeting were noted evangelists from all over the United States, men of learning, who were gifted with the golden tongues of oratory. They were on the program to tell the Assembly their methods of evangelistic work and gave some interesting and finished talks. Rev. M. V. P. Yeaman introduced "Uncle Joe," the oldest evangelist present, and suggested that he should tell the Assembly the methods he used in winning people to Christianity. The old man, bent with years, his staff in hand mounted the rostrum, and in the simple language which is all he knows he told the men of learning his way of winning souls, which was to preach the "simple gospel" as he understood it. His talk was short, as he finished every man in the audience voluntarily arose to his feet, without a suggestion being made, and stood in respect until "Uncle Joe" stepped down from the platform and took his seat. He was the only man on whom such a signal honor was conferred during the meeting.

County Fairs.

The season of county fairs is approaching, and as usual, there will be many such exhibitions in Kentucky. An agricultural paper not long ago defined the fair as "an exhibit prepared by a community for the purpose of advertisement and for the education and attraction of the public," and the definition is a good one.

The county fair is of pre-eminent importance to the farmers. Naturally it should be faithfully representative of the county's agricultural products. It is true, however, that such is not always the case, and that some fairs make a scanty showing in this respect. Evidently many farmers do not appreciate the fact that a display of products is a good advertisement for the farmer as well as for the county in general. The premiums that are offered are not always sufficiently large to be of great attraction in themselves, but the farmer who raises fine stock and neglects the fair as a means of making the public acquainted with his accomplishments in that line is overlooking a splendid advertising opportunity. The same may be said with regard to the products of the soil. It requires some time and trouble to prepare an exhibit for the fair but the farmer who does so will not have labored in vain, even though he may not fare very well when the blue and red ribbons are distributed. He, at least, has advertised his "goods" and has advertised himself as a progressive citizen.

Every farmer who has the energy and the ambition to get along in the world should co-operate with those who are laboring to make a success of his county fair. It will pay him to do so, for advertising pays in farming as in other things. A fair is not alone of value to the immediate locality where it is held. It helps business, of course, at the county seat or the place of its location, but it also helps the whole county, and the influence of a first-class fair, extends even beyond county boundaries. For that reason the fair should be representative, to the end that the best results may be obtained from its advertising value.

Local Leghorns Laying Well

Poultry fanciers here are watching with interest the work of A. C. Alford's Leghorns in the egg laying contest near Frankfort. They are still in second place and keeping above the average every week. Mr. Alford expects some fine laying from now on, and believes that he has a good chance to win the handsome trophy offered. The Buff Orpingtons of Mrs. S. J. Embry started off splendidly, but as there are a sitting brood, have not maintained the good egg record that they began. Mrs. Embry regrets very much that she was unable to enter a pen of her English Salmon Faverolles in this contest, and plans to enter this strain in the winter contest.
